n/a

Dieses Kalibrierzertifikat dokumentiert die Rückführbarkeit auf nationale Normale zur Darstellung der physikalischen Einheiten (SI).

This calibration certificate documents the traceability to national standards, which realize the physical units of measurement (SI).

Messresultate, Messverfahren und Messunsicherheiten sind auf den folgenden Seiten aufgeführt und sind Teil des Zertifikates.

The measurements, the uncertainties with confidence probably and calibration methods are given on the following pages and are part of the certificate.

Dieses Kalibrierzertifikat darf ohne die schriftliche Zustimmung des Laboratoriums nicht auszugsweise vervielfältigt werden.

This calibration certificate shall not be reproduced except in full, without written approval of the laboratory.

Laboratorio di taratura - ISO17025

Kalibrierzertifikat *Certificate of calibration*

No.**CC151 500-E**

Messverfahren

Measurement method

Die Kalibrierung erfolgt nach Kalibrieranweisung:

The calibration is carried out according to the calibration instructions:

PIT-302-E PIT-301-E

Prüfprozedur:

Used procedure:

GMC_Secutest SII+_5320A_Rev1.3

Ort der Kalibrierung METRON Measurement SA
Calibration place CH-6572 Quartino

Kalibrierbedingungen

Test conditions

Temperatur: $23^{\circ}\text{C} \pm 5^{\circ}\text{C}$
Temperature:

Relative Luftfeuchte: $50 \pm 20\%$
Humidity:

Messunsicherheit

Measurement Uncertainty

Die angegebene erweiterte Messunsicherheit ist die Standardunsicherheit der Messung multipliziert mit einem Erweiterungsfaktor $k=2$, was bei einer Normalverteilung einem Vertrauensniveau von etwa 95% entspricht.

The reported expanded uncertainty of measurement is stated as the standard uncertainty of measurement multiplied by the coverage factor $k=2$, which for a normal distribution corresponds to a coverage probability of approximately 95%.

Anmerkung bezüglich der Konformitätserklärung

Note about to the declaration of conformity

Die Konformitätserklärung ist auf einer scharfen Entscheidung, ob das Messergebnis liegt innerhalb oder außerhalb der Toleranzzone, ohne Berücksichtigung der Messunsicherheit basiert.

The statement of conformity is based on a sharp decision whether the measurement result lies within or outside the tolerance zone, without taking the uncertainty of measurement into account.
